Education

Example State University May 2025
B.S. in Computer Science, Minor in Business Administration *Springfield, IL*

- Coursework: Operating Systems, Data Structures & Algorithms, Software Engineering, Databases, Computer Networks, Computer Organization, Human-Computer Interaction

Experience

Northwind Bank Aug 2025 – Present
Software Engineer | Go, Python, AWS Lambda, PostgreSQL *Dallas, TX*

- Built a Go service that opens pull requests for dependency fixes across 40 repositories, closing 38 vulnerabilities in a quarter.
- Moved a billing database with a billion rows to a managed cluster, owning the schema checks, cut-over and rollback plan.

Contoso Instruments May 2024 – Aug 2024
Software Engineer Intern | Python, C, Embedded Systems *Austin, TX*

- Wrote a tool that compares device support across chip families, replacing a week of manual searching.

Fabrikam Aerospace – Space Division May 2023 – Aug 2023
Software Engineer Intern | Python, JavaScript *Huntsville, AL*

- Extracted thousands of attributes from a systems model into structured JSON.

Projects

Plant Identifier
React, AWS S3, Python, Flask, Machine Learning

- Trained a convolutional network that names houseplants from photos with 95% accuracy.
- Built a React front end and Flask API that store each upload in S3.

Alumni Paths
C++, Graph Algorithms, Data Processing

- Placed second in a class hackathon by modelling where graduates go next.

Leadership & Involvement

Learning Committee Aug 2025 – Present
Committee Member and Cloud Instructor, Northwind Bank *Dallas, TX*

- Taught a cloud storage workshop for 30 engineers.

Computing Student Union May 2023 – May 2025
Co-Founder and Treasurer, Example State University *Springfield, IL*

- Co-founded a club for incoming computer science students.

Technical Skills

Languages: Go, Python, Java, C++, JavaScript, SQL, Bash, MATLAB
Technologies: AWS Lambda, PostgreSQL, React, Flask, Docker, Git
